

Services for local councils

TCorp's Local Government Services (LGS) team supports community infrastructure and council financial objectives by providing infrastructure lending to NSW councils. The long-dated funding we offer is competitive and enables local councils to achieve their community project objectives.

Councils also have access to the TCorpIM Funds¹ and TCorp Term Deposits.

Loan facilities

TCorp can provide loan facilities to local councils seeking funding for infrastructure projects which make up part of their annual expenditure programme. Loan facilities, at competitive rates, are available to local councils that are deemed financially sustainable and satisfy TCorp's credit criteria.

TCorp offers fixed rate amortising loans repayable by regular instalments of principal and interest with terms out to 20 years to eligible local councils.

Investment options

Local councils can invest in the TCorpIM Funds, which provide a number of investment options to suit a range of objectives, risk appetites and time horizons. For more information, see the [TCorpIM Funds Offer Document](#) and/or discuss with your financial advisor.

Councils also have access to invest in TCorp Term Deposits.

¹ Eligible forms of investment for local councils under the Ministerial Investment Order includes TCorpIM Cash Fund, TCorpIM Short Term Income Fund, TCorpIM Medium Term Growth Fund and TCorpIM Long Term Growth Fund.

More information

For more information about TCorp's services for local councils, please contact the Local Government Services team.
